

Looking for International Co-production Partners!

# The Animal Conference on the Environment

The Animal Conference on the Environment is a fun animated series through which children can learn about environmental issues and explore different cultures. Animals from all over the world, each with their own unique personality and backstory, get together and discuss the environment around them. By sharing information, prejudices, and misconceptions, they come to understand each other and value the environment.

## Characters

**Kiinu Korea**  
A handsome woman with  
a strong sense of justice

From 2D to 3D

## Theme

1. The forest
2. Garbage
3. Cars
4. Energy
5. Food
6. Oceans and rivers
7. Animals
8. The earth

## Settings

Tokyo Bay, built on landfill. Germany's Schwarzwald, which has seen damage from acid rain. Curitiba, Brazil, with its well-organized public transit system. Kenya's Lake Turkana, which suffers from desertification. France, where the most delicious cooking ingredients arrive from all over the world. Adventures can take place in cities facing environmental destruction, towns that are actively working to combat environmental issues, and areas where the world's most endangered species live.

## Infinite Possibilities for Development and Expansion

- Characters that differ in culture, lifestyle, and experiences hear different opinions and learn to solve various the environmental issues close to their hearts
- Since each character can become the protagonist of their own story, the project is well-suited for an international co-production

## History

- 2002 Publication and release of the picture book series "ACE".
- 2010 The first season of the TV animated series (5 minutes each, 20 episodes in all) is broadcast on NHK Educational.
- 2012 NHK Enterprises releases a DVD set of ACE.
